FROM

JOHN BHORE ESQ AMICE
Chief Engineer of Mysore
Bangalore

To

Narayanaswami Iyengar, Esq, B A, B L,
General Secretary to Government Bangalore

SIR

I have the honor to forward herewith an estimate amounting to Rs 6,470/- for the construction of shops on the main drain on the eastern side of Avenue Road Bangalore City for favour of sanction with the following remarks -

(1) The depth of foundation provided for the northern side shop walls seems high, and may be caused to be reduced by widening the foundation if necessary

(2) The sections of the girders provided below the main wall are insufficient to carry a load of 13 tons for a span of 26 feet and heavier sections are required, but the calculations furnished are for half the width of the span i e, 26/2 - 13 ft

the conditions as stated and the calculation requires verification before the work is put in hand

Provision for terrace roof is made for northern shop in the estimate but in the elevation sloped tile roofing is shown The plan has been altered to suit the estimate provisions

A copy of the Municipal resolution approving the proposal is also appended

It is stated in the covering letter No 307 dated the 5th February 29, received from the President that there is no allotment for this work in the current year's budget and that necessary funds will be reappropriated from the other works
